

**Additive Industries**  
Industrialising 3D printing for functional parts

## Press release

### **Dutch Prime Minister opens new Additive Industries factory** **Mr. Mark Rutte emphasizes importance of high tech industry for the Dutch economy**

Eindhoven (The Netherlands), October 3, 2018 – Dutch Prime Minister, Mr. Mark Rutte, has opened the brand new factory of Additive Industries in Eindhoven, The Netherlands. After speeches by the two founders of Additive Industries, Jonas Wintermans and Daan Kersten, Mark Rutte unveiled the spacious, clean and open factory space of the fast growing manufacturer of industrial 3D metal printing equipment. ‘This new factory allows us to accelerate our growth and has the capacity to assemble and test up to 100-200 systems per year, which aligns well with our worldwide expansion plans to grow to a Top 3 position in our market’, said Daan Kersten, Co-founder and CEO of Additive Industries.

#### **About Additive Industries**

Additive Industries is accelerating industrial additive manufacturing of high quality, functional, metal parts by offering a modular end-to-end 3D printing system including a seamlessly integrated information platform to high end and demanding industrial markets. With substantially improved reproducibility, productivity, and flexibility, Additive Industries redefines the business case for series production of additive manufacturing applications in aerospace, automotive, medical technology and high-tech equipment.
